

## DHS Chapter Report / Article

10/21/2019

It's getting into that busy time for our FFA members. Before we head into National Convention and more competitions, let's recap.

In late September we had several members help with the annual Farm-To-Table Dinner.

On October 5th, Greenhand and COLT Conference took place at Dyer County High School. Thanks to all members who devoted their time that Saturday morning!

Erin Welch has been hard at work preparing her speech for National Convention. We wish her the best of luck in the upcoming competition.

Our Agriscience class constructed models representing the FFA Emblem- some were very creative!

Our members shared their love of agriculture by heading over to Dyersburg Primary School for Farm Day on October

18th. There, our members demonstrated butter making, showed the kids livestock, went on a hayride, and helped to make crafts about agriculture.

We have had several members busy with SAE Projects. These include Jack Ladd's knife creations, Emily Escue's pumpkin patch, and Mackenzie Moody's goat operation.

As we kick it into high-gear for Livestock, Parliamentary Procedure, and CCM CDEs, we will also have several members at National Convention.

Let's make the upcoming months as successful as September and October were!
